Figma

## PERSONAL PROJECTS

### Personal Portfolio

- <https://usama-0.github.io/PersonalPortfolio.github.io/>
- Develop a personal portfolio website to show my skills and projects

### Airline Ticket Reservation System

- <https://github.com/Usama-0/AirlineTicketReservation>
- Developed a real-time Airline Ticket Reservation System using the MERN (MongoDB, Express.js, React, Node.js) stack, offering users seamless booking experiences.
- implemented real-time flight data updates, integrated email and SMS notifications for booking confirmations and updates, and integrated a chatbot for intuitive ticket reservations.

### Netflix-Clone

- <https://adorable-biscochitos-00323b.netlify.app/>
- Developed a Netflix clone with a focus on replicating the streaming platform's key features and user experience.
- Implemented user authentication, video streaming, search functionality, user profiles, and responsive design.

### Doctor Appointment System

- <https://dark-ruby-fox-vest.cyclic.cloud/>
- Developed a Doctor Appointment System to streamline and automate the appointment booking process for healthcare facilities.
- Implemented user registration, appointment scheduling, real-time availability updates, and a user-friendly interface.
